Example 1

What do you usually do in your spare time?

As a matter of fact, I have very little spare time these days. My studies are so important to me that I have given up all my other activities. For example, I used to love playing tennis, but these days I simply do not have the time. In addition, I used to swim often, as I believe it kept me fit without the danger of being injured.

What are your spare time interests?

Well, these days, I surf on the Internet in my spare time. I have just bought a new computer, and love to look for exciting web sites that I have not known before. It is of course very time-consuming, so I don't really have time for anything else. I have to mention that it is an educational activity. For example, by means of web camera, I am able to watch what wild animals are doing in many parts of the world. I particularly like to watch the polar bears playing with their cubs.

Do you often watch TV? What is your favorite program?

Yes, I often watch TV. My favorite program is called Discovery. The reason why I like this program is because it is a documentary on real life events and happenings. For example, it had a program on the latest eclipse of the sun that occurred at the end of the year. And it often has items about nature, like last week, it explained how some birds have adapted to survive in a desert.

Do you think watching TV is a waste of time?

No, I do not think watching TV is a waste of time. I think we can learn a lot from watching TV, and it is a good way to relax. For example, the soap operas help me relax, while the documentaries are informative. I also believe that TV has become the best source of information these days. I would say that it is a fast and convenient way to find out about the latest news from all over the world.

Example 2

Do you cook?

I do, I cook all the time. I sometimes cook simple dishes like fried or scrambled eggs, other times I make steaks. I cook when my parents are not at home. I tried to make soup once, but it wasn't very tasty, so I gave up on soups.

Do you like cooking?

I like cooking a lot. I help my mom cook whenever I get the chance, and I cook for myself almost every evening. I've been cooking since I was 16, and I've learned to cook a lot of dishes. I also like to experiment with food, so I create new dishes or change existing recipes.

When did you last cook something that everybody liked?

Just yesterday I made some scrambled eggs for the whole family. I mixed some ketchup with a bit of pepper and salt, and I spread it on the eggs, and it was very successful. Everybody liked it, or at least that's what they said.

Do you prefer to eat homemade or restaurant food?

I would rather eat homemade food mainly because I can cook it myself, and I have control over the ingredients and the taste. Restaurant food is OK, and I can eat it but only sometimes, especially when I go out with my friends.

It's true that cooking at home takes more time, and you also have to do the dishes after eating, and it may also be more expensive to buy the ingredients, especially if you want quality, but overall I think homemade food is healthier than restaurant food, so I prefer it.
